

effacts Data Privacy

Compliance with the
E.U. General Data
Protection Regulation
is a must.

The E.U. **General Data Protection Regulation (GDPR)** requires organizations to provide insight into their data processes and show they comply with the regulation. Organizations that fail to comply can face fines of up to €20 million or 4% of their global turnover, whichever is higher. **effacts** has developed a data privacy tool that allows you to **track and manage personal data** within your organization. The powerful reporting capabilities help you **mitigate risks and proactively manage data breaches**.

effacts is the online easy-to-use smart repository that will transform your company's legal information from a burden into a strategic advantage.

Benefits

Instant access to important management information speeds up response time and regulatory compliance

Reduce the complexity of data management processes

Spend less time on data management tasks

Consolidate information to accelerate problem resolutions
